I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

Our basic approach to corporate governance and how the company streamlines mechanism and exercises corporate governance based on this approach are described in the Corporate Governance Policy (the Policy) in the following website.

Corporate Governance Policy (“Policy”) (English Translation)
<https://pr.fujitsu.com/jp/ir/governance/governancereport-b-en.pdf>

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Our company is implementing each of the principles of the Japan's Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1.4 Strategic Shareholdings]

The Company holds only those strategic shares with clear-cut objectives and meaningful significance in a positive manner. Board of Directors meetings examine the weighted average capital cost of the Company as the standard to evaluate quantitatively whether returns (quantitative factors, such as dividends and the state of transactions), or risks are well balanced with the cost. If quantitative significance in shareholdings is not detected, Board of Directors meetings will further evaluate whether there is a qualitative reason that provides backing for reasonableness to still hold those shares and discuss the continuation of such holdings.

For FY2019, the Company sold 53 issues, and the Board of Directors meeting, held on June 18, 2020, discussed strategic shareholdings held by the Company as of the end of March, FY2019.

The Company deals with strategic shareholders on an equal footing just like with other business partners. Even when strategic shareholders indicate their sales of shares, we do not prevent them from selling them. Said that, we sometimes call upon them the timing of sales, or ways of selling them.

In addition, for the policy for strategic shareholdings and the standard of exercising voting rights as to the strategic shareholdings, please refer to 3.(4) of the Policy in the following website.

<https://pr.fujitsu.com/jp/ir/governance/governancereport-b-en.pdf>

[Principle 1.7 Related Party Transactions]

The Board of Directors performs the oversight on the transactions involving the conflict of interest by Directors in accordance with the relevant laws, regulations, and the Regulations of the Board of Directors. For the procedure framework, please refer to 2.(2)c of the Policy in the following website.

The Company puts in place the structure where the manager is engaged in management over a long period of time. The Company also refers to an external consultant firm for advice on management.

1. Action taken in FY2019 based on the evaluation of FY2018

Arrangements were made following FY2018 to help increase report efficiency, such as monthly results reports, which would enable the Board of Directors meetings to spend more time on the discussion of matters that should be focused on. Additionally, Independent Directors and Auditors continued to hold the Independent Directors and Auditors Council in an effort to facilitate exchange of information and formulation of opinions between them.

2. Evaluation of FY2019

In evaluation of FY2019, considering that Independent Director Abe took up the post of Chairman of the Board of Directors, an anonymous questionnaire to assess the position was conducted in February 2020 to hear opinions from the members of the Board. Additionally, in June 2020, an anonymous questionnaire with the five-grade evaluation was conducted as an appraisal of the effectiveness of the Board of Directors as a whole. The opinions of each questionnaire were respectively reported in regularly-scheduled meetings of the Board of Directors followed by discussions on the results. When discussing the evaluation of the effectiveness of the Board of Directors as a whole in June, evaluation of the Board of Directors of the Company from proxy-advisory firms was also reported.

(2) Evaluation

As a result of the above, the following evaluations were made.

- Although some improvements in materials for Board of Directors meetings were observed, there is room for improvement in the method of information provided and the volume of the materials.
- It is important to further enhance opportunities to obtain information and to communicate outside of the Board of Directors meetings, including the Independent Directors and Auditors Council. As a new effort, private sessions by Independent Directors and Auditors will be held to enhance communication.

■ Views and policies for Group management

Fujitsu manages the Fujitsu Group with the aim of achieving continuous growth and the generation of medium- to long-term corporate value of the entire Group while also urging each Group company to realize its potential to the maximum extent possible.

For some subsidiaries, we publicly list them with the aim of further improving their business value through diversification of the capital procurement necessary for sustainable growth and enhancing the value of the entire Group. By publicly listing subsidiaries, it is possible to focus on investment in specific businesses rather than just in the Group as a whole, thus contributing to diversifying investment opportunities. As there are some concerns regarding the possibility of a conflict of interest with minority shareholders and our publicly listed subsidiaries, we respect the independence of their management and make efforts to provide advice and support to enhance the corporate value of relevant subsidiaries by holding reporting sessions on an as-needed basis. To further promote our policies for group management, we established a department in February 2020 as a corporate function that specializes in formulating and conducting plans and measures for the most suitable group formation and corporate governance, thus handling the management of the Group including listed subsidiaries.

Our policy is to turn non-core listed companies into strong independent businesses. We will consider their independence from the following perspectives: ensuring sustainable growth of the relevant business, maximizing the Company's asset value, and considering the best timing for independence.

■ Significance of each listed subsidiary

[Significance of owning listed subsidiaries]

Listed subsidiaries of the Company include the following two companies: FDK Corporation, and Shinko Electric Industries Co., Ltd. As previously described in the policies for Group management, we consider that the following is the common significance of owning these two publicly listed companies: by adding the ability to raise capital through direct financing from the capital market, we can enhance the possibilities of sustainable growth and business value, which leads to providing investment opportunities in specific businesses rather than in our entire Group.

Our Group hereafter will concentrate our management resources on Technology Solutions so as to further transform ourselves into a DX company.

Our policy is to turn non-core listed companies into strong independent businesses. The Board of Directors will verify specific details to be considered concerning the maintenance of the listing of each listed subsidiary.

[Measures to ensure the effectiveness of corporate governance]

Fujitsu understands that our publicly listed subsidiaries make efforts to enhance corporate governance and provides support for these efforts. We recommend our listed subsidiaries become a Company with an Audit and Supervisory Committee to strengthen corporate governance. Accordingly, in all listed subsidiaries are ensured their independence by appointing Independent Directors and Directors dispatched from the Company maximize the corporate value of theirs.

External Audit & Supervisory Board Member's Relationship with the Company (2)

Name	Designation as Independent Member	Supplementary Explanation of the Relationship	Reasons of Appointment
Koji Hatsukawa	○	Mr. Hatsukawa is a former CEO of PricewaterhouseCoopers Aarata. Fujitsu and PricewaterhouseCoopers Aarata have sales business dealings associated with services of the Company, which in fiscal 2019 amounted to about ¥ 0.6 million.	Mr. Hatsukawa has been appointed as an External Audit & Supervisory Board Member because he has a wealth of auditing experience at global corporations as a certified public accountant, and he has broad knowledge of corporate accounting. As noted on the left, PricewaterhouseCoopers Aarata, where Mr. Hatsukawa served as CEO, has a business relationship with Fujitsu, but it is considered immaterial and not constituting a conflict of interest when taking into account the size of Fujitsu's total sales. PricewaterhouseCoopers Aarata has not performed accounting audits for Fujitsu. Fujitsu has thus determined that there is no risk of a conflict of interest in representing the interests of regular shareholders. Therefore, Fujitsu considers him to be independent and has designated Mr. Hatsukawa as an Independent Audit & Supervisory Board Member.
Hideo Makuta	○	-	Mr. Hideo Makuta has no direct company management experience, but has profound insight into not only legal but also economic and social matters affecting corporate management, gained through his career as a public prosecutor and as a commissioner of the Japan Fair Trade Commission. Therefore, Fujitsu considers him to be

			independent and has designated Mr. Makuta as an Independent Audit & Supervisory Board Member.

[Incentives]

Incentive Policies for Directors	Performance-based Compensation
----------------------------------	--------------------------------

Supplementary Explanation

<p>Executive compensation is comprised of the following: "Base Compensation," specifically a fixed monthly salary in accordance with position and responsibilities; "Bonuses" that are compensation linked to short-term business performance; and "Performance-based Stock Compensation," which is a long-term incentive that emphasizes a connection to shareholder value. At the 107th Annual Shareholders' Meeting held on June 22, 2007, a resolution terminating the retirement allowance system for executives was passed.</p> <p>Details of the Performance-based Compensation are described below.</p> <p><Outline of Bonuses> The Company, in an attempt to give incentives to Executive Directors to achieve their performance targets for a fiscal year, has adopted an on-target bonus system that reflects their achievement level of performance targets for the fiscal year in their compensation.</p> <p>(1) Outline of the System At the start of a fiscal year, the Company will present to Executive Directors a base amount of bonus in accordance with their respective performance targets, responsibilities and titles. When the fiscal year is over, each applicable person will be paid the amount that is calculated by multiplying the base amount of bonus by the coefficient in accordance with the achievement level of performance targets.</p> <p>(2) Indicator of Performance Achievement Level and Coefficient Coefficient is set up within a certain scope according to performance achievement level vis-à-vis the prearranged performance targets in terms of sales revenue and operating profit in the consolidated financial results that the Company pursues as its management target indicator. When a performance achievement level turns out to be less than the pre-determined lower limit, no bonus will be paid. When a performance achievement level exceeds the pre-determined upper limit, the amount that is calculated by multiplying the base amount of bonus by the upper limit of the pre-determined coefficient will be paid.</p> <p><Outline of Performance-based Stock Compensation> The Company has adopted a performance-based stock compensation system (hereinafter referred to as "the System") in an attempt to give incentives to Executive Directors to enhance mid- to long-term corporate value and further promote business management from the perspective of shareholders.</p> <p>(1) Overview of the Plan</p>

The Company will present to Executive Directors the pre-determined base number of shares, the performance judging period (three fiscal years) and performance targets in accordance with their respective grades. The number of shares, which is calculated by multiplying base number of shares by a fixed coefficient according to the level of performance achievement, is fixed at each fiscal year. When the performance judging period is over, the total number of shares is allocated to each applicable person. Then, monetary compensation claims comparable to market value of allocated shares are provided to the Executive Directors. The Executive Directors invest these monetary compensation claims in allocated shares to acquire shares of the Company. The Executive Directors may transfer acquired shares of the Company at their own discretion unless they violate regulations regarding insider trading based on laws and regulations.

(2) Indicator of Performance Achievement Level and Coefficient

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions

(Overview of Current Corporate Governance System)

(1) Overview of Corporate Governance Structure

<Board of Directors>

The Company has a Board of Directors to serve as a body for making important decisions and overseeing management. The Board of Directors delegates the decision-making authority over business execution to the Representative Directors and subordinate Corporate Executive Officers to the broadest extent that is permitted by law and the Articles of Incorporation of the company and is considered to be reasonable and will mainly perform as oversight and advisory function. Moreover, the oversight function of the Board of Directors has been strengthened by actively appointing External Directors with high independence and diverse perspective. Furthermore, in order to better define the management responsibility of the Directors, their terms were reduced from two years to one year in accordance with a resolution at the June 23, 2006 Annual Shareholders' Meeting. The Board of Directors is comprised of 9 members in total: 3 Executive Directors and 6 Non-Executive Directors (including 5 External Directors).

The Company held 13 Board of Directors meetings in FY2019 (including one extraordinary Board of Directors meeting) to discuss matters including progress in the formulation of the Management Direction, business reformation and measures for implementing them as well as to decide a new management system based on the report of the Executive Nomination Committee. All Board of Directors meeting were attended by all members.

<Audit & Supervisory Board>

The Company has an Audit & Supervisory Board that performs the auditing and oversight functions. The auditing and oversight functions are carried out by Audit & Supervisory Board Members, who review the Board of Directors as well as business execution functions and attend important meetings, including meetings of the Board of Directors.

The Audit & Supervisory Board has four members, comprising two full-time Audit & Supervisory Board Members and two External Audit & Supervisory Board Members. The Company held 9 Audit & Supervisory Board meetings in FY2019, mainly to discuss audit policy and plans as well as the audit method of Accounting Auditors and the properness of the audit results. Internal Audit Departments made reports and full-time members of the Audit & Supervisory Board reported matters of importance to External Audit & Supervisory Board Members, which were discussed at Audit & Supervisory Board meetings. Except one Audit & Supervisory Board Members meeting with a single Audit & Supervisory Board Member absent, all the other meetings were attended by all Audit & Supervisory Board Members.

<Independent Directors & Auditors Council>

In response to the requirements of Japan's Corporate Governance Code, which facilitates the activities of Independent Directors and Auditors, and in order to invigorate discussions on the medium- to long-term direction of the Company at its Board of Directors Meetings, the Company believes it essential to establish a system that enables Independent Directors and Auditors, who maintain a certain degree of separation from the execution of business activities, to consistently gain a deeper understanding of the Company's business. Based on this recognition, the Company established the Independent Directors and Auditors Council in FY2015, which consists of all Independent Directors (five Independent Directors and two Independent Auditors), and discusses the medium- to long-term direction of the Company, shares information, and exchanges viewpoints so that each can formulate their own opinions.

In FY2019, the Independent Directors and Auditors Council met eight times. The members discussed the Company's management direction, human resources development, the scope of business of the Company and of the Fujitsu Group, etc., and shared information while exchanging viewpoints so that each could formulate their own opinions.

(2) Status of Business Execution Organs

For the Status of Business Execution Organs, please refer IV1 .

(3) Status of Accounting Audits and Internal Audits

<Accounting Audits>

The accounting auditor, Ernst & Young ShinNihon LLC, reports to the Audit & Supervisory Board concerning the audit plan and results. The accounting auditor also conducts exchange of opinions when needed and carries

out coordinated audits. The four certified public accountants associated with Ernst & Young ShinNihon LLC who performed the accounting audit were Messrs. Yuichi Mochinaga, Yoshihiko Nakatani, Tomoko Tanabe and Kohei Koyama. In addition, they were assisted by a further 47 certified public accountants, 17 accounting assistants, and another 57 persons, all associated with Ernst & Young ShinNihon LLC.

<Internal Audits>

The Internal Control & Audit Office (with 46 members) serves as an internal audit group. This office audits the internal affairs of the entire Fujitsu Group in cooperation with the internal audit groups of each Group company. The Internal Control & Audit Office reports once a month, as a rule, to full-time members of the Audit & Supervisory Board on auditing plans for and results of internal audits, including matters relating to Group companies, and makes regular reports, once every quarter as a rule, to the Audit & Supervisory Board and accounting auditor.

The Internal Control & Audit Office includes a significant number of employees with specialist internal auditing knowledge, including Certified Internal Auditors (CIA), Certified Information Systems Auditors (CISA), and Certified Fraud Examiners (CFE).

(4) Overview of Limitation of Liability Contracts

The Company has entered agreements to limit the liability of Non-Executive Directors and Audit & Supervisory Board Members under Article 423, Clause 1 of the Companies Act.

The limitation of liability in such agreements shall be the minimum liability amount under the law. Limitation of liability shall be based on the premise that the Non-Executive Director or Audit & Supervisory Board Member is fulfilling their responsibility and engaging in execution of duties in good faith, and that there is no significant negligence.

3. Reasons for Adoption of Current Corporate Governance System

We believe that both direct oversight to business execution by the Non-Executive Directors and the oversight by Audit & Supervisory Board Members that stays distant from the decision making and operation of business execution should work jointly to ensure highly effective oversight performance. The company adopts “the company with Audit & Supervisory Board system” that establishes the Audit & Supervisory Board, which is composed of the Audit & Supervisory Board Members appointed as an independent agent.

The Board of Directors comprises same number or more Non-Executive Directors as Executive Directors to ensure its capacity to correct faulty, insufficient, or excessive business executions. While External Directors should be the core of Non-Executive Directors on account of their high independence, at least one Non-Executive Director is appointed from within the company to complement the External Directors’ knowledge in the business fields and the corporate culture of the company so that the efficiency of oversight performance by the Non-Executive Directors are enhanced.

The Management Council consists of the minimum number of members, which include the CEO. By operating the Management Council as a body that enables timely discussion of and decision-making on any matters concerning business execution, the efficiency and the speed of management and the effectiveness of the meetings of the Management Council are enhanced.

In addition, in fiscal 2019, by integrating the rules determining the scope of delegation of duties from Representative Directors to other executives and employees and other matters and the rules on various approvals, revision of the approval standards, accompanying extensive delegation of duties, was implemented to further increase the speed of management.

2. Risk Management System and Compliance System

The Company positions the risk management system and the compliance system at the heart of the “Policy on the Internal Control System” and has established the Risk Management & Compliance Committee (the “Committee”), which supervises these systems globally and reports to the Board of Directors.

The Committee is chaired by the Representative Director and CEO and consists of Executive Directors. The Committee meets periodically and determines policies for preventing risks in business operations from arising and for countermeasures for losses caused by risks that have arisen.

The chairperson of the Committee has appointed a Chief Risk Compliance Officer (CRCO) who executes the Committee’s decisions.

Regarding compliance violations and risks in business operations, including information security, the Committee has established and operates a system that covers not only the Company but the Fujitsu Group and ensures reporting to the Committee in a timely manner. It also operates the internal reporting system. Under the Committee, the Company has appointed a Chief Information Security Officer (CISO) in accordance with the Fujitsu Group Information Security Policy (Global Security Policy). Further, under the CISO, regional CISOs have been appointed to formulate and implement information security measures.

In the course of operating the systems described above, besides reporting when risks have arisen, the Committee periodically reports the progress and results of its activities to the Board of Directors and is supervised.

Moreover, the Global Business Standards, which provide guidance on how individual employees should apply the Fujitsu Way Code of Conduct in their actions and are available in 20 languages, are applied uniformly across the Fujitsu Group. In addition to establishment and operation of compliance-related rules applicable to the entire Fujitsu Group, the Company has established the Global Compliance Program and is implementing various education programs and awareness raising activities to maintain and improve the structure for legal compliance across the Fujitsu Group.

As an initiative for information management, in January 2018 the Company applied to the Dutch Data Protection Authority (DPA) to obtain approval for its Binding Corporate Rules for Processors (BCR-P), which are common rules established across the Fujitsu Group related to the handling of personal data that customers have entrusted to Fujitsu for processing. This application is part of the Company’s effort to meet the legal requirements for the protection of personal data in Europe laid out in the General Data Protection Regulation (GDPR) of the EU. The Company is responding to the authorities, as appropriate, to obtain the approval. Regarding the internal reporting system, the Fujitsu Group has established points of contact inside and outside the Company, operated as the Compliance Line/Fujitsu Alert, to receive reports from all Group employees and offer consultations. Group companies also have established and are operating their own points of contact for reporting and consultation. These systems enable early detection of unlawful action and remediation and help strengthen fair management ensuring compliance with laws and regulations.

3. System to Ensure Proper Financial Reporting

Under the direction of the Risk Management & Compliance Committee, the organization responsible for internal control and internal audits has established a system called “Eagle Innovation.” In accordance with the rules established by the Company based on the principles of the Practice Standards for Management Assessment and Audit concerning Internal Control Over Financial Reporting published by the Business Accounting Council, internal control over financial reporting throughout the Fujitsu Group is assessed. The activity statuses and assessment results are reported to the CFO and the Risk Management & Compliance Committee.

4. System to Ensure the Properness of Fujitsu Group Operations

The risk management system, the compliance system, and the system for ensuring proper financial reporting cover the Fujitsu Group.

Especially for risk management and compliance systems, Regional Risk Management & Compliance Committees have been established for individual Regions, which are geographical executive divisions of the Fujitsu Group worldwide. These regional committees are positioned under the Risk Management & Compliance Committee to function so that the entire Fujitsu Group is covered.

In addition, as a part of a system to ensure the properness of Fujitsu Group operations, the Company has established the Rules for Delegation of Authority that determines authority for decision-making of important matters of Fujitsu Group companies (excluding certain subsidiaries) and the decision-making process. The Company has its Group companies comply with the Rules. In addition, Group companies are

required to report on their operations to the Company. In this way, the Company has put in place systems for decision-making and reporting of important matters at the Group.

The status of operation of the internal control system centering on the above is periodically reported to the Board of Directors.
