

FUJITSU AT A GLANCE BY SEGMENT

Fujitsu delivers total solutions in the field of information and communication technology (ICT). Along with the provision of a broad array of services, our comprehensive business encompasses the development, manufacture, sales, and maintenance of cutting-edge, high-quality, and high-performance products and electronic devices that make these services possible.

Technology Solutions

Major products and services

Services

- Solutions / SI
- System integration (system construction, business applications, etc.)
- Consulting
- Front-end technologies (ATMs, POS systems, etc.)

Infrastructure Services

- Outsourcing services (datacenters, ICT operation/management, application operation/management, business process outsourcing, etc.)
- Cloud services (IaaS, PaaS, SaaS, etc.)
- Network services (business networks, etc.)
- System support services (maintenance and surveillance services for information systems and networks)
- Security solutions (installation of information systems and networks)

System Platforms

- System Products
- Full range of servers (mainframe, UNIX, mission-critical x86 and other x86 servers)
- Storage systems
- Various types of software (operating system, middleware)

Network Products

- Network management systems
- Optical transmission systems
- Mobile phone base stations

Ubiquitous Solutions

Major products and services

- PCs
- Mobile phones

Device Solutions

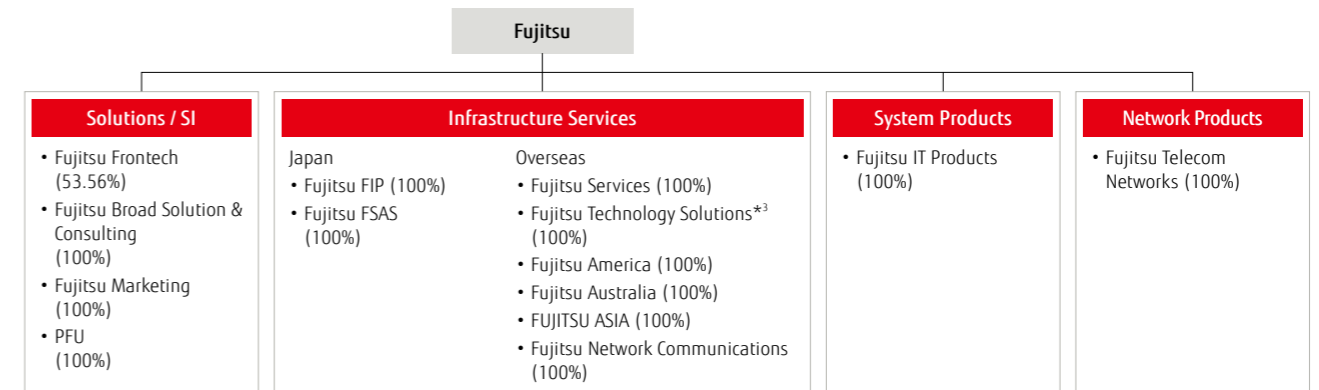

Major products and services

- LSI devices
- Electronic components (semiconductor packages, batteries, structural components, optical transceiver modules, printed circuit boards)

*¹ Includes intersegment sales
*² Excludes elimination and corporate

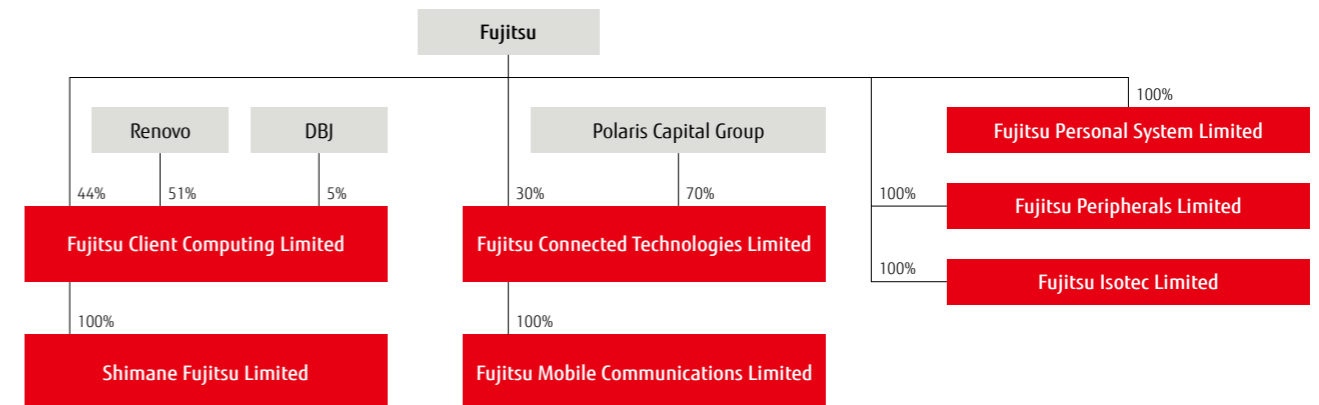

(As of October 1, 2018)

Major subsidiaries and associated companies in the Technology Solutions segment

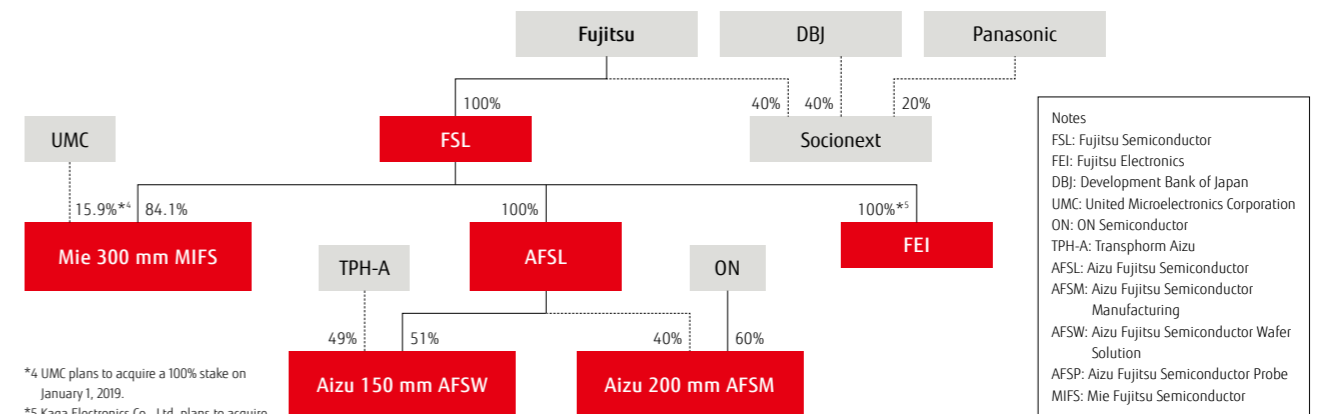

*³ The PC business of Fujitsu Technology Solutions is included in the Ubiquitous Solutions segment.

Major subsidiaries and associated companies in the Ubiquitous Solutions segment

Major subsidiaries and associated companies in the Device Solutions segment

*⁴ UMC plans to acquire a 100% stake on January 1, 2019.
*⁵ Kaga Electronics Co., Ltd. plans to acquire a 70% stake on January 1, 2019.
