We consider the process of producing this integrated report as one of the means that makes our business strategy more sustainable and accelerates management transformation. By working on its production in close cooperation with all concerned departments, we aimed to advance the Group’s efforts to contribute to the resolution of societal issues through our business and to achieve sustainable growth.

With the non-financial indicators set as management targets, the executives in charge of each indicator and employees involved in the task force have given their views.

Throughout the report, we disclose as much quantitative data as possible on the progress of the transformation, while on the qualitative side, we try to portray the transformation in a more in-depth manner by depicting it from multiple perspectives, including those of our executives and employees. Furthermore, we attempt to communicate our value creation consistently.
