Fujitsu ActivateNow 2021

Fujitsu's Technology Vision and Strategy

: the View from the CTO

Vivek Mahajan CTO Fujitsu Limited

## **Technology Areas that underpin Key Focus Areas**

**Vertical Areas** 

### Sustainable Manufacturing

Circular, traceable manufacturing with consideration to the environment and people

### Consumer Experience

Payments, logistics and retail that provide consumers with diverse experiences

### Healthy Living

Supporting all kinds of people in living in ways that promote wellbeing

## Trusted Society

Creating communities that embody safe, secure and resilient

**Horizontal Areas** 

#### **Digital Shifts**

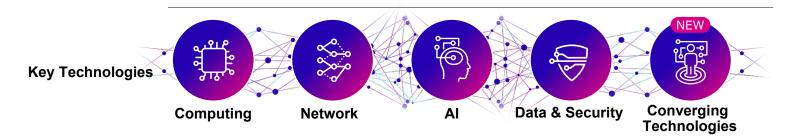

Data-Driven Work Style Reform

#### **Business Applications**

Cloud Integration Applications

#### **Hybrid IT**

Cloud Security

# Computing

# Super Computer "Fugaku"

World's 1st Computing Performance and Low Energy Consumption

# **High Performance Computing**

Providing Processors, Middleware, Software, and Solutions as a Platform

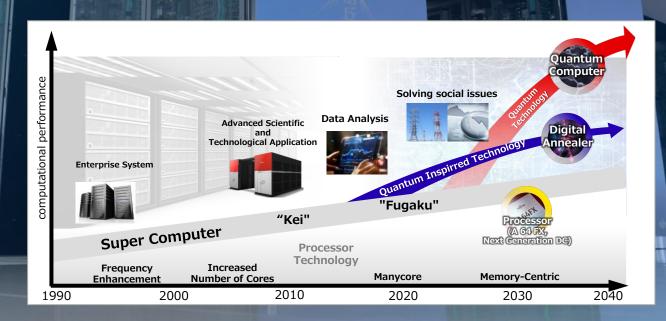

photo credit: RIKEN

© 2021 Fujitsu Limited

# **Quantum Computing**

## **Digital Annealer**

Leading the way with quantum-inspired technology for combinatorial optimization problems

# Quantum Computer

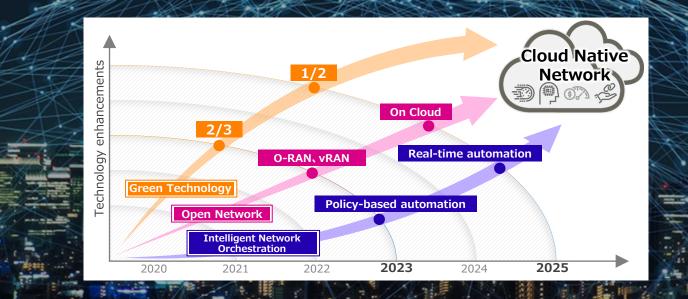

Accelerate practical application by researching and development hardware, software, algorithms, solutions and applications in collaboration with world-class partners

## Network

Enable across the world to deploy true end-to-end fully virtualized cloud native networks

- Open Network: 5G/Beyond, O-RAN, vRAN, High-efficiency Radio Unit, Public Cloud (AWS, Microsoft Azure)
- Intelligent Network Orchestration: AI/Machine Learning, Integrated Security
- Green Technologies: All-Photonics and Photoelectric Conversion

## AI

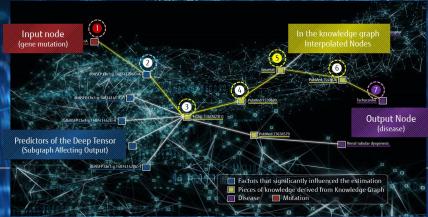

### Take global initiatives with technologies that enable "better AI society"

- AI ethics
- AI large-scale simulation: Tsunami inundation prediction

### Discovery AI enables creative collaboration with people

- Explainable AI, Causal AI: Genomic medicine
- Behavior Detection: Gymnastics scoring support system

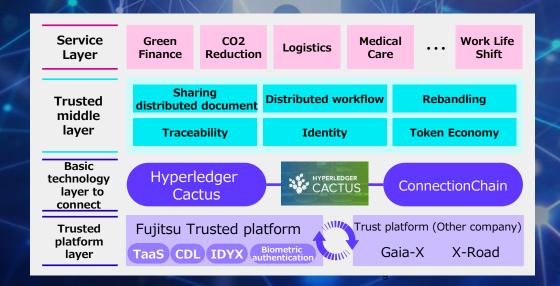

# Data & Security

Digital trust technology supports resilient and secure data distribution platform for risk management in the zero-trust era

- Blockchain: Hyperledger-Cactus
- Data Traceability: CDL "Chain Data Lineage"
- Digital Identity: IDYX "IDentityY eXchange"
- Data Authenticity Assurances: TaaS "Trust as a Service"

### **Cutting-Edge Digital technology x Humanities & Social Sciences**

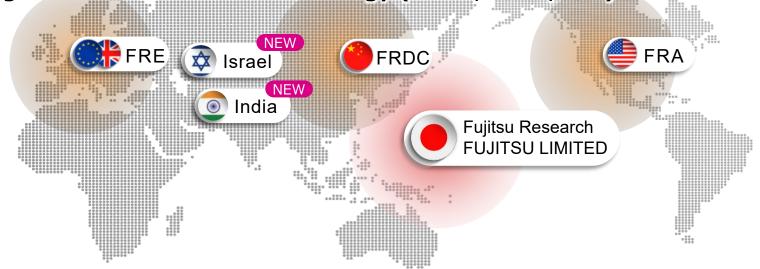

- Human sensing: AI image analysis and behavioral science
- Social Digital Twin: Real-time Data Processing × Behavioral Economics/Social Sciences

## Strengthen Global R&D Organization

- Promotion of open innovation
- Fujitsu Laboratories integrated into Fujitsu :Renamed to Fujitsu Research
- Organize Technology Strategy Unit:
  For formulation of company-wide technology strategy
- Strengthen R&D in software technology (Israel, India, etc.)

Thank you
