

Simplifying your SAP S/4HANA migration

Planning a successful ERP transformation with Fujitsu and RISE with SAP

Even after making significant SAP decisions, crucial choices remain. Fujitsu aims to simplify your journey to the cloud, enhance your decision-making process, and help you build an intelligent enterprise.

What can RISE with SAP do for you?

Modernize your ERP to stay ahead of the curve

Increase scalability, flexibility, and cost savings

Simplify IT operations into a single platform

Drive innovation by leveraging the power of the cloud

Provide exclusive access to SAP features including:

- SAP's Green Ledger
- Premium GenAI
- Enhanced data services
- SAP Signavio

Which transformation is right for you?

We will help you choose between:

Brownfield "Lift-and-shift"

Quickly migrate your current ERP system to S/4HANA, maintaining existing process and customizations.

Bluefield "Hybrid"

Balance short-term migration gains with long-term best practices by selectively transitioning data within complex structures.

Greenfield "Radical rethink"

Implement a clean ERP system, eliminating previous customizations and inefficiencies to focus on future-proofing systems and shifting to a 'clean core'.

Why is the clean core important?

A clean core approach involves bringing only essential master data, customizations, and processes to your new SAP S/4HANA deployment.

This helps to:

- Simplify your system landscape by eliminating unnecessary customizations and redundant data
- Enable greater agility and gain clear visibility into business process performance
- Enhanced data quality and availability leading to improved decision-making capabilities with enhanced data quality and availability

How can Fujitsu support my move to SAP S/4HANA?

From seamlessly transitioning to the cloud to harnessing the power of the **SAP Business Technology Platform**, Fujitsu adds value to your migration journey.

The framework is designed to streamline the migration journey, combining best practices, automated tools, and expert consultancy to manage the complexity of SAP S/4HANA migration projects.

Our innovations are designed to meet your specific needs, including:

- Creating a seamless migration process utilizing advanced AI to automate and accelerate
- Future-proofing operations through cloud-native solutions that are scalable, flexible, and secure
- Ensuring flexibility through hybrid cloud environments during your SAP system migration
- Employing agile methodologies for faster time-to-value and iterative development, allowing adjustments to your migration plan as needed
- Offering user-friendly interfaces and comprehensive training programs to prioritize the improved user experience

What if I need help with specific challenges?

Fujitsu's 'Wayfinders' consultants play a crucial role in the success of **RISE with SAP** projects. These experienced professionals provide deep expertise in SAP cloud technologies and business transformation, offering:

- Strategic guidance** (Icon: Network diagram)
- Technical expertise** (Icon: Gear with circuit lines)
- Change management support** (Icon: Group of people)
- Project management** (Icon: Person with checkmark)

SAP decision makers face numerous critical dilemmas, and the choices you make will significantly shape the nature of your ERP system. For a well-thought out and successful migration, consider the following:
