

Carrying Out Our Responsibilities to Stakeholders Based on The FUJITSU Way

Business Vision

We believe that the fundamental purpose of the Fujitsu Group is to solve customer problems and contribute to society by offering high-quality products and services supported by advanced technology. This thinking underlies management's profound interest in policies relating to "customers," "employees," "quality," and "environment," among other matters. We believe that focusing equally on all these areas enables us to contribute to the well-being of our stakeholders, including customers, employees, shareholders and investors, suppliers and business partners, local and international communities, public entities and administrators,

and as a result helps to foster the growth of the Fujitsu Group as well.

While striving to provide ever-higher value to our customers, we are working to fulfill our social responsibilities to our stakeholders and contribute to the realization of a sustainable society.

The FUJITSU Way

Introduced in 2002, *The FUJITSU Way* is the core set of principles guiding the corporate and individual actions of the Fujitsu Group and our continuing development as good global corporate citizens. A common understanding of

Established at business unit level

Fujitsu's mission, values and code of conduct serves as the standard governing individual employees' business activities.

Underlying this thinking is our commitment to helping promote the concept of sustainability. Meeting this commitment requires highly integrated efforts encompassing several different aspects of corporate activity: a social aspect, wherein the corporation fosters fair and honest work practices and a respect for human rights; an economic aspect, wherein the corporation pursues sound and efficient management and seeks to explain its actions by providing adequate disclosure of information; and an environmental aspect, wherein the corporation promotes global

environmental protection initiatives ranging from actions to stop global warming to actions to help build a recycling-minded society. We hope to continue meeting the expectations and earning the trust of our stakeholders by demonstrating measurable results in each of these so-called triple bottom line areas.

The FUJITSU Way is the driving force behind our socially responsible business strategy and the inspiration for related Group-wide activities, business policies and plans.
