ALL-ROUND

Computing for the Modern Office

The enterprise market has seen a boost in uptake of more traditional forms of PC in recent years.
The reasons are clear – and clean.

The ESPRIMO range from Fujitsu.

More versatile

More efficient

Greener

Quieter than ever before

With everything you expect from a desktop product and more.

Three numbers that add up to performance: D9010, G9010, P9910. The portfolio's hero products.

The highest performing devices in their respective series.
ESPRIMO D9010, G9010, P9910 – The gift of a perfect working experience!

Powerful performance to run demanding business applications.

Enhanced security, ultimate flexibility.

The ESPRIMO D Series
Smarter, stronger and smaller than ever

Use cases
- Where space saving is mandatory
- Where standard office applications with good performance are needed
- Where robust and solid setups are needed (i.e. training centers, schools, public areas)
- Special environments e.g. post offices, fire department control centers

Highlights

intel

10th generation
Intel®Core™ Processors

Low power
consumption

New housing and
ultimate expandability

What's new

- 10th generation Intel®Core™ Processors and latest Intel® Chipset technology
- Low power consumption (less than 5 Watts at idle)
- Available in two finishes: black and white
- Zero noise PC function for a quieter workplace
- VESA mount for attaching the PC to displays, stands, walls etc.
- Multi-bay concept (DVD option / SmartCard reader option) and integrated power supply

"We needed a flexible computing platform that could integrate with all the various components."

Ozgur Bilgin
Payment Systems Software Development Manager
TEB

"The ESPRIMO Q is a great fit for our requirements profile, therefore it is the ideal choice for our company."

Stephan Riedal
Owner
Der Orthopadie-Schuhmacher

"Technology tools used in education need to be rugged, high quality, have a long lifecycle, be easy to manage and, of course, fit in the budget. Fujitsu ESPRIMO PCs have exceeded all our expectations."

Stefan Peter
Head of Department
Klebelsberg Institution Maintenance Center
