Culture Change

Reimagining how we work and live

Putting your people at the center of your new ways of working delivers a more resilient, adaptive and sustainable workforce who can respond to change quickly and at ease. This is Fujitsu’s Culture Change, and it can be yours. Using insight from analytics, providing in-the-flow learning and through advisory services, Culture Change helps you to increase agility while caring for the well-being and safety of your people.
An adaptive workforce for a fast changing world

Our world is changing fast; to survive and prosper, your organization has to pursue an agile workforce that can pivot quickly to change. At the same time, our environment and society are facing unprecedented challenges; we all have to reimagine how we live and work.

We call this FUJITSU Work Life Shift

Without culture change, nothing changes. According to McKinsey & Co, 70% of change programs fail to achieve their goals. When people are genuinely invested in change, it is significantly more likely to stick.

Our Culture Change solutions build resilience into the fabric of your organization with new ways of working and empowering your people. Digital adoption, guided by continuous learning methods, creates new agile ways of working for faster speed-to-market and increased focus on what customers want.

And we also put the highest priority on the well-being of your people. We provide for their safety and well-being, with anxiety monitoring, social distancing and contact tracing solutions to ensure your people can perform at their very best for your customers.

Fujitsu Culture Change

1. Empathetic
   Human Experience Design puts the needs of your people at the center.

2. Experience Focused
   Expert Advisors use data analytics to design the best experience.

3. Protected
   Secure digital solutions keep your people safe and protected.

4. Value Driven
   Our expert advisors ensure you get the most from your technological investments.
A value-based approach, explained

Digital adoption, guided by behavioral change methods, can create agile new ways of working—improving experiences for customers and employees alike. The overall Fujitsu end-to-end delivery approach gives you a choice of one, some, or all of three distinct phases:

**Journey Builder**

Consultancy engagement defines your baseline position, outcomes and values to be delivered through transforming.

- Human Experience Design workshops provide an empathetic approach to determine your unique vision and goals that align to your culture and values.
- Mapping of how this value will be delivered through the Fujitsu Results Chain methodology to determine your unique journey to success.
- Creation of a prioritised backlog of activities needed to achieve your vision and goals.

**Agile Transformation**

Human-centric transformation focusing on people, their experience, well-being and safety. Always in a secure and compliant way.

- Agile delivery throughout.
- Targets the attitudes, beliefs, emotions and relationships to drive optimal behaviors, and ultimately successful transformation results.
- Easy strategies to measure your transformation success efficiently.
- Established configuration templates and guidelines.

**Managed Service**

Delivering continuous value through an evolving, always up to date service, that ensures you get the most for your investments.

- Flexible, full end to end managed service, or plug and play into your existing support model.
- Delivered from our network of Global Delivery Centres, available 24x7, scales up, down and out with your changing business needs.
- Evergreen, keeps up to date with the latest technologies, ensuring you extract the most value from your cloud and as a Service platforms.
Your organization’s benefits

An adaptive and resilient culture is our vision for every organization. Upon delivery of industry-leading cloud platforms and Fujitsu expert advisory services, you can expect:

**Enhanced well-being**
using insight from analytics and supportive technologies so your people can bring their best selves

**A more resilient workforce**
able to take advantage from change through greater access to insight and in the flow learning and development

**Accelerated pace to market**
by adopting agile ways of working using multi-disciplined composable teams

### Culture Change service options

Culture Change offers three service options, which can be tailored to your individual needs and maturity:

1. **Safe Working**
   Ensures the safety of your workforce by providing solutions that support lone workers and help enforce social distancing measures for the safe return to work:
   - **Our Body Warn Camera solution** provides real-time live feeds and remote assistance to protect lone or vulnerable workers
   - **Our thermal imaging, image recognition and track and trace solutions** enable you to monitor those entering your facilities for pandemic symptoms, who is wearing appropriate PPE and who they are so corrective measures can be taken. While also ensuring you know who has been in contact with what and whom so that spaces can be appropriately cleaned and people traced if necessary.

2. **Workforce Well-being**
   Enables your people to bring their best selves using our digital solutions to monitor and help improve their well-being:
   - **Our Buddy Connect solution** provides support for those that need assistance in the workplace, enabling them to report how they are feeling and to receive support when they need it
   - **Our MyState application** monitors anxiety in the workforce, enabling you to proactively support your people and help guide them on how they can support themselves.

3. **Employee Experience**
   Increase the resilience and adaptability of your workforce by giving them the knowledge, learning and experience they need to get work done:
   - **Our outcome focused advisory driven services** use our human experience design approach to provide best practice guidance on how to measure and improve employee experience using data analytics, knowledge management and in the flow learning and development.
