Spokespeople biography

Vivek Mahajan

Corporate Executive Officer, Corporate Vice President, CTO, CPO

Vivek entered Fujitsu in July 2021 as Corporate Executive Officer and Chief Technology Officer. In 2023, he became Chief Portfolio Officer and Co-Head of the System Platform Business Group and took on the roles of Corporate Executive Officer and Corporate Vice President in 2024. He is focused on transforming Fujitsu into a world-leading technology company with innovative technologies.

Vivek started his career with Tandem Computers in 1994. He has worked with leading global companies, including General Electric, Siebel Systems, Oracle, and IBM. Business professional focused on global leadership in innovation and technology. Entered IBM Japan, Ltd., in October 2010 as a Vice President. In February 2020, he became IBM Corporation's Chief Revenue Officer for the IBM Cloud.

Greg Manganello

Senior Vice President and Head of the Network Software & Integration Business Unit

Greg's mission is to deliver successful business outcomes to customers by focusing on innovative network automation software, systems integration of complete end-to-end multivendor solutions, and solution management for smooth network operations.

Greg's transformation-oriented leadership style is the result of over 35 years of revenue and profit creation in technology companies. Greg began his career at Bell Laboratories and lived and worked in 10 cities and 5 countries. He led the acquisition of TrueNet Communications in 2016 and is chairman of its board of directors. In wireless, he and the team worked with DISH Networks that built the first cloud-native, Open Radio Access Network (ORAN) network in North America. Greg is a board member of the Open RAN Policy Coalition.

Patrik Eriksson

Vice President and Head of Radio Unit Business and Development

Patrik Eriksson leads the company's global radio portfolio and development strategy. He has over 25 years of experience in wireless product management and engineering leadership, including more than 15 years at Ericsson, where he most recently served as Head of Radio Systems and Technology. Prior to Ericsson, he held roles at Flextronics, Wavebreaker AB and Acreo AB. Patrik holds a Master of Science in Engineering from Luleå University of Technology in Sweden. He is based in Texas, USA.

Femi Adeyemi

Head of Strategic Program Management, Wireless Business

Dr. Femi Adeyemi is responsible for engaging the wireless industry in the 5G Open RAN ecosystem, with an emphasis in wireless network design, development, and deployment, to help mobile operators around the world deliver on the promise of 5G and beyond.

Femi has over 25 years of experience in the wireless and communications network industry. Prior to working with Fujitsu, he drove technology and product strategy for LTE and voice in 3G/4G macrocell and femtocell product lines at Airvana Inc (later acquired by Commscope and Ericsson). He has also held various senior technical and management roles at Motorola, Engim and Elbera (a company he founded). Femi holds a BS, MS, and Ph.D. in electrical engineering.

Udo Würtz

Deputy CDO and Business Development Director of the European Platform Business

Udo is deputy Chief Data Officer (CDO) of the Fujitsu European Platform Business. In his function he advises customers at C-level (CIO, CTO, CEO, CDO, CFO) on strategies, technologies and new trends in the IT business.

Before joining Fujitsu, he worked for 17 years as CIO for a large retail company and later for a Cloud Service Provider, where he was responsible for the implementation of secure and highly available IT architectures. Subsequently, he was appointed by the Federal Ministry of Economics and Technology as an expert for the Trusted Cloud Program of the Federal Government in Berlin.

Udo Würtz is intensively involved in Fujitsu's activities in the fields of artificial intelligence (AI), container technologies and the Internet of Things (IoT) and, as a Fujitsu Fellow, gives lectures and live demos on these topics. He also runs his own YouTube channel on the subject of AI (<https://wiegehtki.de>).
