

# Fujitsu CSR Board

A CSR Board has been established to shape how our CSR programme should be delivered throughout the UK & Ireland. The board meet regularly to discuss the way forward for the various areas that are incorporated within Fujitsu UK & Ireland CSR programme and includes various members of the executive team as well as key stakeholders, senior members of the CSR team and an external advisor, Baroness Sally Greengross. As well as strategic planning, the CSR Board also invite external speakers to share experience and give advice to help Fujitsu put CSR at the heart of our business and its operations.

“Responsible business practice doesn't just happen, it has to be embedded in the DNA of the organisation and it has to be led from the top so that everybody is involved and committed to it.”

Baroness Sally Greengross OBE
