SPARC M10 Systems Documentation

For the documents related to the SPARC M10 Systems, see "SPARC M10 Systems Documentation List" in the *Fujitsu M10/SPARC M10 Systems Quick Guide*.

Activating CPU Core(s) before Receiving CPU Activations

If you activate CPU core(s) before receiving your Key(s), the Interim Permit feature provides a temporary CPU core capacity for up to 30 days on the premise that additional CPU Activation(s) will be purchased.

It is used to activate unused CPU core resource urgently.

For more details on using this feature, please see Appendix K in the *Fujitsu M10/SPARC M10 Systems System Operation and Administration Guide*.

Obtaining CPU Activation Key(s) by e-mail

Your CPU Activation Key(s) can be obtained by an e-mail. If you cannot use Interim CPU Activation Permit, this method can minimize the time taken to deliver your Key(s).

CPU Activation Key(s) will be delivered a few days after Export Control Check, typically.

Adding X-option Key(s) or re-issuing your Key(s):

To receive your CPU Activation Key(s), please provide the 8-digit Oracle Order Number indicated in your booking confirmation e-mail. If you do not have this number, please ask your sales representative to provide it to you.

Please use the following template to fill in all of the items in your e-mail.

This delivery process is available for Fujitsu M10 servers in all countries and regions throughout the world.

[To:] fujitsum10-activation@ml.css.fujitsu.com

[Subject:] Activation Request
