Business Structure

We deliver new value for our customers with ideas from "Things" output in the Trinity consisting of products, solutions and service.

Business Activities in 4 Kinds of Segments

We, Fujitsu Frontech Group, now operate our business in 4 kinds of segments, which are "Global Product Business", "Service Integration Business", "Public Solution Business" and "Front Solution Business".

Regarding as our own strong points, not only both our core technologies such as cash handling, secure & reassuring settlement methods and our unique technologies (leading edge palm vein authentication, RFID and others), but also onsite knowledge and systems engineering skills based on our intimate understanding of business fields and affairs, we deliver new value for our customers with ideas from "Things" which are output in the Trinity consisting of products, solutions and service.

Sales

We help our customer mitigate environmental burden, proposing introduction of eco-friendly products and environmental contribution solutions.

Delivery of Eco-friendly Products and Environmental Contribution Solutions

Fujitsu Frontech Group Sales Division contributes to mitigating environmental burden at customer side by delivering both eco-friendly products and environmental contribution solutions, which are capable of reducing CO₂ largely.

And, in environmental contribution solutions, we utilize proposal documents with explanation about such as an effect of reducing CO₂ emissions after the introduction, in time of business talk with our customers.

* This is Fujitsu Group original eco-label. We put this label on our "Green Products", etc.
