

Our Environmental Priority Themes

Based on “Fujitsu Frontech Group Environmental Policy”, we pursue the rich, beautiful nature and the sustainable social development, cooperating with society.

We, Fujitsu Frontech Group, decide on “Fujitsu Frontech Group Environmental Policy” based on the trend for global environmental issues around companies such as climate change issue and biodiversity conservation, Fujitsu Group Environmental Policy and Medium- to Long-term Environmental Vision, and establish “Fujitsu Frontech Group Environmental Action Plan” based on the policy, and practice it.

In “Environmental Action Plan Stage VIII” (FY2016 - 2018), we could meet all the targets that we had established. In “Stage IX” (FY2019 - 2020), we established a wide range of activities as new targets, adding “SDGs (Sustainable Development Goals)”, and will take actions.

Fujitsu Frontech Group Environmental Policy

Philosophy

We, Fujitsu Frontech Group, follow Fujitsu Group Environmental Policy and define “eco-friendly business activity” as our basic philosophy. We also promote our efforts for the earth environmental protection, recognizing it as one of the most important business issues.

By utilizing our own technology and creativity as an ICT company, we contribute to the sustainable development of society. In addition, we not only comply with the environmental laws, regulations and standards applicable to our business activities, but also make efforts for the earth environmental protection activities by ourselves.

Moreover, we continuously pursue our advanced efforts by all groups and employees, in order to save a rich nature for future generations.

Principles

1. We reduce the environmental burden at every stage through the life-cycle of our products and service.
2. Through our ICT products and solutions, we help our customers and society to reduce their environmental burden and to enhance their environmental efficiency.
3. We create our top-runner products reinforcing the energy efficiency, resource saving and 3Rs (reduce, reuse and recycle).
4. We always recognize the impact on the environment by our activities, products and service, and comply with the applicable environmental laws, regulations, other requirements and our internal guidelines and so on, in order to fulfill our CSR (Corporate Social Responsibility).
5. Based on the results of the environmental impact assessments related to our activities, products and service, we implement pollution prevention and continuous improvement.
6. We set up and review our environmental objectives and targets on “Our Society” and “Our Business”, and each of us make efforts for the earth environmental protection including measures against climate change and protection of biodiversity with participation of all employees.

Contents	Page No.

Period

This report discloses mainly the activities in FY2018, and the indicated data are the final actual values. However, this report also includes some data from the period other than FY2018.

Communication (Editorial Postscript)

Not to mention climate change, biodiversity and water resource, recently, as marine pollution affected by waste plastics is closed up, we can see the relevant news to a variety of environmental issues in mass media, almost every day.

And, in the state that society needs companies to take actions on the environmental protection such as ESG (Environment, Society and Governance) and SDGs stronger and stronger in the world, Fujitsu Frontech Group, under its basic philosophy called “eco-friendly business activity”, promotes environmental business. We have issued “Environmental Report 2019”, including the introduction about these activities.

We will keep on issuing this annual report continuously, and will make our efforts to reflect everyone’s opinions and suggestions on creating the more meaningful and more fruitful report.
