## Specification Disclaimers

1. Secured-core PCs require specific configuration to fully enable the highest level of protection against attack. 2. Please go to [www.Intel.com/11thgen](http://www.Intel.com/11thgen) for details. 3. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. 4. GB = 1 billion bytes, TB = 1 trillion bytes, when referring to hard disk drive capacity. Accessible capacity may vary, also depending on used software. Up to 20 GB of HDD space is reserved for system recovery. 5. Shared memory depending on main memory size and operating system. 6. The availability of WWAN module subjects to countries. Please contact our Fujitsu sales specialist for more information. 7. Interfaces depend on the configuration selected by customers. 8. Battery runtime information is based on worldwide acknowledged BAPCo® MobileMark® 2018 (office productivity). Refer to [www.bapco.com](http://www.bapco.com) for additional details. The BAPCo® MobileMark® Benchmark provides results that enable direct product comparisons between manufacturers. It does not guarantee any specific battery runtime which actually can be lower and may vary depending on product model, configuration, application and power management settings. The battery capacity decreases slightly with every re-charge and over its lifetime. 2-cell battery will only be available in specific countries/ regions. For more details, please contact Fujitsu sales specialist. 9. The mentioned thickness does not include rubber feet. Product availability may vary depending on country. Availability may vary geography and product is only be available in selected market.
