Smart players adapt everywhere

VDI solutions across industries
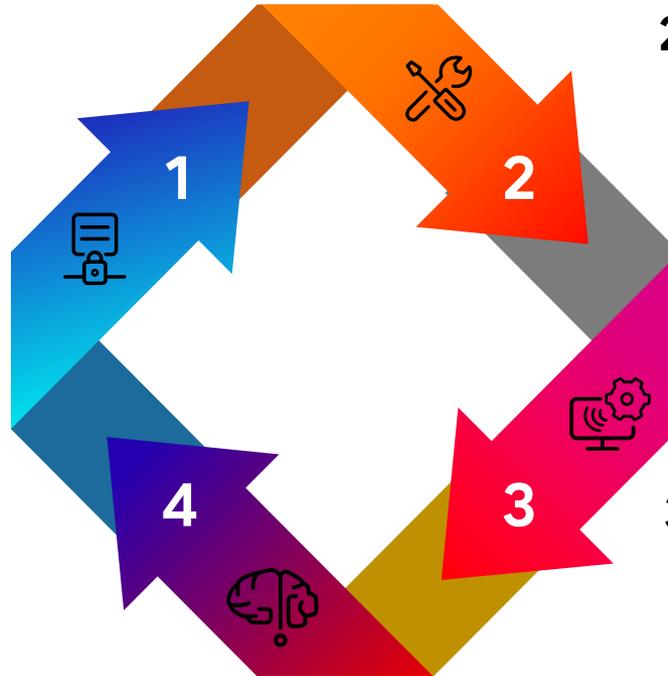

FUJITSU

#dontworryWORKhappy

Forget about complexity

1. Stay secure

Data protection
Integrated solutions
Infrastructure management
Networking
Servers & storage
Software

2. CXperience workshops

Strategy
Business needs
Technical requirements
Applications landscape

4. Orchestration

Broad portfolio
Deep experience & know-how
Rollout & deployment
Pay-as-you-go service models

3. Assessment service

Ad-hoc solutions
VDI Assessment Service (VAS)
Reporting packages
Proof of Concept (PoC)

Why the VAS is crucial to succeed?

- Demonstrates feasibility
- Identifies potential issues
- Tests customer workflow requirements
- Test applications and peripherals
- Validates customer experience
- Very high failure rate without a PoC

What is included?

FUJITSU

- Pre-engagement document
- Initial scoping call to establish requirements
- Workshop, if required, to develop out PoC schedule
- On-site PoC to run for 3 weeks on customer premises*
- End report/design for the final solution
