

Microsoft 365 Assessment

Unlock a more productive and secure workspace in weeks

Highlights of a Microsoft 365 Assessment

- ✓ Detailed report
- ✓ Powerful assessment tool 'Perimeta for 365'
- ✓ Human-centric security
- ✓ Opportunity for workshops
- ✓ Maximise Microsoft investment
- ✓ Clear uplift plan
- ✓ Two week assessment timeline

Dive deep into your Microsoft 365 environment to enhance security, uncover hidden ROI opportunities, and receive a comprehensive report for strategic improvement.

In just 2 weeks you will gain insights and an understanding of your Microsoft 365 tenant security posture, vulnerabilities, risks, and opportunities for optimisation. With thousands of security configuration settings in Microsoft 365, it can be difficult knowing where to start when you need to assess your security. Learn and Identify licensed but unused Microsoft 365 features that could drive increased ROI for your organisation. Get an informative, detailed report with key insights into your Microsoft 365 configuration to help you understand where you are right now, and the opportunities for improvement.

Uplift

We don't just tell you what can be improved, our experienced team can also elevate key areas based on the assessment findings, boosting and optimising your Microsoft 365 tenant.

So, what are we comparing your settings against?

We assess your Microsoft 365 tenant against the [ASD Blueprint](#) for Secure Cloud, the Australian Government's cybersecurity standard designed to safeguard organisations across the economy.

Our assessment ensures your organisation meets best-practice security benchmarks while maximising the ROI of your Microsoft 365 investment. Beyond compliance, our assessment leverages real-world expertise and industry insights to provide actionable recommendations tailored to your organisation's unique needs.

Our two week approach

1 Discover	Onboarding of the assessment tool 'Perimeta for 365' to connect to your Microsoft 365 tenancy. Perimeta for 365 is a powerful SaaS tool we designed to help your business reach and maintain the highest cyber security posture for all of the Microsoft 365 services that you depend on. It streamlines the configuration process, in addition to offering real-time monitoring and one-click remediation for configuration drifts.
2 Assess	Review data, analysing security configurations + Identification of licensed but unused features that could drive increased ROI.
3 Review	Drafting report and opportunity for workshops with a deep dive into specifics.
4 Report	Detailed analysis of security assessment findings presented in a comprehensive report.
5 Ongoing support	At Fujitsu Cyber, our dedicated team is committed to providing continuous support and expert guidance at every step of your cyber resilience journey.

Why choose Fujitsu Cyber?

Microsoft Solutions Partner

As a Microsoft Solutions Partner, Fujitsu Cyber stays at the forefront of technological advancements, ensuring clients benefit from the latest Microsoft innovations. By leveraging the latest Microsoft technologies, Fujitsu helps customers stay ahead in a rapidly evolving digital landscape.

Strategic innovation

We're at the cutting edge of the cybersecurity market, providing you with innovative solutions that set new standards for cyber resilience and success.

Strategic support

The assessment is not just about identifying risks; it's also about providing strategic recommendations and ongoing support to manage and optimise your Microsoft 365 environment, ensuring you get the most out of your investment.
