## Composting Workshop & Contest

Location: Poland

In cooperation with India GDC, we organized a Composting Workshop. An external expert talked about types of composting methods, do's and don'ts of composting, managing kitchen waste like a pro and other related topics. In order to encourage people to join, Poland GDC organised a contest related to composting. Winners posted messages about composting on GRiP Poland Yammer and received composters as rewards.

People: 161 participants of webinar  
and 15 participants of contest

Environment

Compliance

Community

Supply Chain

Benefits realized:

161 employees from across Fujitsu learnt more about composting

Each composter the participants use is less methane emitted into the air

SGDs covered:

# Household Eco-Efficiency Program

## Kintsugi Workshop

Location: Poland

In the spirit of Zero Waste, we organized a Kintsugi workshop, to learn how to repair broken ceramic objects, like cups, mugs or plates. The methods were inspired by the Japanese art of kintsugi. We've learnt how this art drives from Japanese philosophy wabi-sabi.

## Water Tap Aerators Contest

Location: Poland

13 people took part in the challenge to limit the amount of water they use at homes. It was a success as participants reported the decreased water consumption. The average amount of water that was saved daily was 0.48 m<sup>3</sup> (cold water) and 0.16 m<sup>3</sup> (hot water). It would give approx. 9 PLN saved daily thanks to installed aerators. We will improve the measurement methods in the future to reflect the usage statistics.

## Plastic Caps Collection

Location: Poland

Employees collect plastic caps on regular basis. The caps are donated to various NGOs supporting ill children and stray homeless animals (like Animal Shelter in Głowno). The caps are sold, recycled and turned into car parts, flower pots etc.
