

DESIGN YOUR ENTERPRISE PROCESS STORE

Businesses are becoming increasingly mobile, distributed and collaborative, with customers and colleagues expecting reliable and convenient service from any device and location.

At the same time, systems and information can be on-premise, in the cloud or operated by partners, making the creation and governance of extended processes a business necessity.

Finally it is now clear that standard application packages alone cannot support the level of customisation required to automate and differentiate the modern business.

Meeting these challenges requires a new approach.

Fujitsu RunMyProcess is a cloud platform for the rapid capture, delivery and distribution of enterprise and mobile business applications. It allows the intuitive creation of a broad range of process-oriented applications along with their simple and consistent distribution through an **Enterprise Process Store** enabling:

✓ **Full governance of processes**

✓ **Maximum transparency and traceability of activities**

✓ **Accessible collaboration**

✓ **Seamless mobility**

We have helped our clients achieve excellence in a large variety of processes and business areas:

HR

- Validation of training and business trips
- Employee on-boarding and off-boarding processes
- Management of recruitment processes

Finance & Procurement

- Investment request management
- Budget validation process
- Validation of suppliers' invoices
- Management of expense reports
- Coordination of new suppliers

Sales & Marketing

- New product validation
- Management of marketing material
- Product personalisation
- Price validation
- Order provisioning

Quality Control & Support

- Incident management
- Field, mobile audit
- Quality control
- Application access control

TRUSTED MARKET LEADER

Fujitsu RunMyProcess enables more than 400 companies globally to design and govern dynamic and connected Enterprise Process Stores. We achieve this by providing a cloud platform for the rapid creation, deployment and distribution of highly customisable enterprise and mobile business applications created to meet our customers' specific needs.

We've helped organisations across a wide range of industries take control of their business specific processes - illustrative examples include:

- Increasing the business impacts of cloud services e.g. through the integrated leverage of modern SaaS solutions like **Google Apps and Office 365**
- Increasing business sustainability through the rapid replacement of legacy technologies e.g. escaping the nightmare of **Lotus Notes**
- Transforming business process agility through cloud platforms e.g. by avoiding the **ERP customisation trap**
- Delivering business innovation through cross-organisational integration e.g. rapid **integration of cloud and on-premise systems**

WHAT OUR CLIENTS SAY:

"Reporting an incident used to take at least 24 hours. Now it only takes 30-60 seconds."

- Victor Ganivet, Operational Maintenance Manager, **RATP**

"We don't have unlimited resources, but thanks to this application we can use our resources for maximum potential return."

- Richard Thomas, Business Application Manager, **Welch Allyn**

"The [RunMyProcess] solution has enabled us to grow by more than 600% in turnover, in the last 12 months without major disruption in the business processes."

- Sjors Bos, General Manager, **I Heart Studios**
