shaping tomorrow with you

FUJITSU

An adaptive platform for the new reality

Our world is changing fast; to survive and prosper, your organization has to pursue adaptability. At the same time, our environment and society are facing unprecedented challenges; we all have to reimagine how we live and work.

We call this **FUJITSU Work Life Shift**

And with the latest cloud technologies and our unique Human Experience Design (HXD) approach, you can respond. The Fujitsu Borderless Office gives your people the flexibility they need to get work done, wherever and however they choose. With the ability to balance personal and work commitments for a more sustainable way of living, your people can truly thrive in the shift.

Borderless Office is built on Microsoft's industry leading cloud technology, Microsoft 365 (M365). Equipped with M365, your people remain secure and productive from anywhere, using their preferred device – whether these are corporately or personally owned. Service is delivered from our eight ISO27001 certified Global Delivery Centers (GDCs), providing you with a service you can scale up, down, or out – as and when you need it.

The ever-changing environment requires us all to continuously develop and learn, just to keep up. To keep you at the forefront, Fujitsu Borderless Office not only ensures your technology is kept up to date, but also provides advice and guidance to your people on how they can get the most out of it. Additionally, to make sure it is working for them, we embed analytics to understand their experiences. Through our digital advisory services, we continuously enhance the experience, allowing them to stay focused on what matters most – delivering great customer experiences.

It all adds up to a digital workspace that gives your people the flexibility to work securely, wherever and whenever they choose.

A value-based approach, explained

Borderless Office is more than a technology deployment. As a key Microsoft partner and one with extensive M365 experience, Fujitsu helps you maximize the value of your technology investment. The overall Fujitsu end-to-end delivery approach gives you a choice of one, some, or all of three distinct phases:

Journey Builder

1

Consultancy engagement defines a customer's baseline position and the outcomes and values to be delivered through transforming with M365.

- Identification of customer-specific value through Fujitsu ResultsChain methodology.
- Workshops to establish security, compliance, connectivity, technology baselines, and deployment strategy.
- Persona and workstyles assessment.
- Fujitsu, Microsoft, and industry best practice.
- Evergreen roadmap planning.

Agile Transformation

2

Human-centric transformation focusing on people, their experience, productivity, and collaboration in a secure and compliant manner.

- Agile delivery.
- Targets the attitudes, beliefs, emotions, and relationships to drive optimal behaviors, and ultimately successful transformation results.
- Easy strategies to measure your transformation success efficiently.
- Established configuration templates and guidelines.

Managed Service

3

Delivering continuous value through an evolving service, always up to date, reducing the digital dexterity gap and brand protection.

- Enables sustained long-term agility.
- Promotes individual and group development, so your culture starts thriving and reaching new levels of productivity and collaboration.
- An evergreen platform to ensure ongoing compliance and to add further value to your Borderless Office.
