

ALIVE WITH CONNECTIVITY

Fujitsu AWS Service

Leading Automotive Company from Japan is driving Vehicle Strategy in the region.

Customer develops to provide various services with collecting and analyzing vehicle data from IoT devices attached to vehicles.

Why customer chose Fujitsu Thailand?

Fujitsu Thailand (FTH) in collaboration with Fujitsu's HQ has a professional service team of solution architects and consultants who are experienced in Telematics, Connected Car Services and AWS Services. These Fujitsu experts has been assigned to design, develop and implement digital solutions to support customer and ensure the success of rollout of this project regionally and globally.

Moreover, FTH can also provide operations support to customer by providing dedicated support team for this connected car project to guarantee that the service will run smoothly 24x7.
