

Retailing in the palm of your hand

What if you could significantly improve customer service and efficiently handle a range of in-store applications — all with one *lightweight device* that fits in your palm? It's simple with the mobile iPAD from Fujitsu. This *all-in-one system* lets your store associates assist customers from anywhere in the store. It's ideal for verifying prices, setting up instant checkouts, paging managers and much more.

The iPAD also gives store managers *real-time data* at their fingertips. They can *review reports, initiate store transfers and monitor POS transactions* for loss prevention activity from anywhere, allowing them to spend more time in the store instead of the back office.

Multi-functional Perform line busting, assist in sidewalk sales, verify prices, conduct inventory control, page store managers and more, all from the palm of your hand.

Cost efficient Replaces many of the expensive — and cumbersome — devices in your retail operations with a small, powerful device.

Goes anywhere Small form factor and lightweight design make it easy for store associates to keep with them anywhere they go.

Built to last Rugged enough to withstand a five-foot drop to concrete, for a long-lasting portable solution that drives down your total cost of ownership.

Powerful technology Features Intel PXA 270 with Microsoft CE.NET 5.0 computing power, 802.11b/g radio that achieves up to 54 Mbps WLAN communications; Bluetooth v1.2 for support of Bluetooth peripherals such as printers.

High-performance scanning 955 hardware decoded laser scan engine supports all of the major barcode symbologies, including the emerging RSS-14 standard.

Easy to upgrade All software, firmware and O/S upgrades can be done wirelessly and remotely via Wavelink Avalanche.

VoIP capable Includes voice over IP capabilities, eliminating the need and cost of portable phones and pagers.

Low maintenance Remote management capabilities enable you to perform maintenance before a device fails, reducing help desk calls and service visits.
