# Collaboration for Digital Transformation

FUJITSU Collaboration Solution

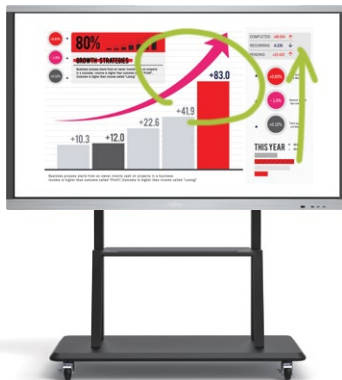

# Transforms Digitize Work Style for Smart Working Places

Meeting room collaboration can help making organizations more productive and responsive, this is the key to digital transformation driving business success. Introducing Fujitsu Collaboration Solution, the integrated wireless solution designed for modern offices and meeting spaces that fosters meeting efficiency and enables a new style of team work; making content sharing simple and a full meeting collaboration experience possible.

## FUJITSU Collaboration Solution Portfolio

### Interactive Panel

Digitized whiteboard experience with unparalleled connectivity

### Collaboration Hub

The integrated wireless collaboration solution enhances meeting efficiency

### Collaboration Launcher

Multi-platform integration in One-Touch

#### Meeting the Workplace Collaboration Challenge

- Stop wasting time addressing device compatibility
- Enable everyone to contribute virtually, from any network location
- Capture your audience's attention with a first-class screen
- Get your meetings underway instantaneously
- Maximize the use of your meeting room space

# FUJITSU Interactive Panel

Fujitsu Interactive Panel supports real-time mirroring of visual and audio content with smooth streaming that transforms traditional meeting rooms to digitized and interactive meeting environment.

- Wireless content sharing from any devices
- Screen capture and annotation
- Available in 65", 75" and 86" with a 4K anti-glare flicker-free display and 7H hardened glass
- Front bezel USB ports for external devices
- Modular design and future proof upgradability

## Multi-platform Wireless Mirroring

Fujitsu Interactive Panel serves as a content sharing hub from any computer or smartphone. It is compatible with different operating systems, including Windows, macOS, iOS and Android.

## Smart Annotation

Users can freeze, annotate, save and share any on-screen content, be it a presentation slide, a video screenshot or a webpage for future references.

## Simultaneous Display

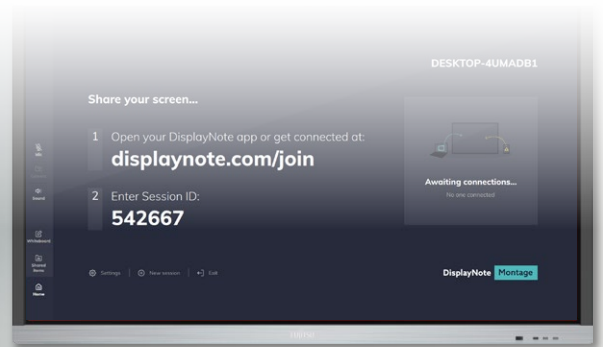

Fujitsu Interactive Panel supports simultaneous display of up to 4 devices, enabling presenters to switch between devices anytime.

# FUJITSU Collaboration Hub

Designed to facilitate effective and timely communication, the Fujitsu Collaboration Hub is an integrated wireless collaboration solution designed for modern offices, meeting rooms and collaboration spaces. Powered by Fujitsu ESPRIMO G558 mini PC and DisplayNote Montage wireless presentation system, users can wirelessly share content from any device to the meeting room display.

- Multi-platform compatibility
- Smart annotation
- Media files sharing
- 2-Way collaboration
- Touch screen
- Remote PC control
- Offsite meeting participation
- Enterprise level security

Fujitsu ESPRIMO G558

**DisplayNote Montage**

## Superb Connectivity

Seamlessly works well with all notebooks, tablets, smartphones with Windows, Mac, iOS and Android, with different web browser such as Chrome, Firefox etc.

## Everyone Can Present From Any Network Location

Fujitsu Collaboration Hub supports dual network connectivity and enables collaboration among users, securely from both corporate network or guest network.

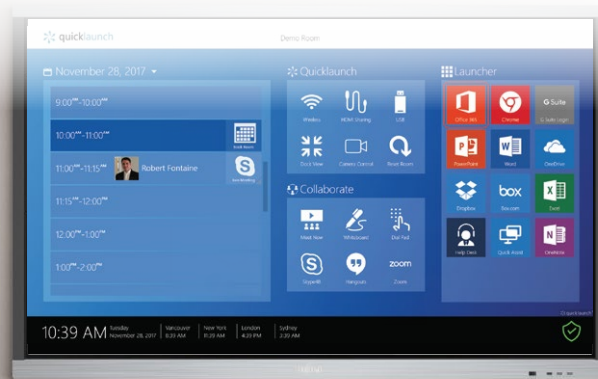

## Secure, Private, Compliant

Every meeting session is protected by a unique ID and 4-digit PIN. All inbound and outbound data is encrypted and transmitted over TLS or DTLS with 2048-bit asymmetric encryption and 256-bit symmetric encryption.

# FUJITSU Collaboration Launcher

Designed to maximize flexibility scale from small meeting spaces to large conference rooms, the Fujitsu Collaboration Launcher is a simple and secure collaboration system that provides multi-platform integration in One-Touch, powered by Fujitsu STYLISTIC Q739 tablet and the Quicklaunch™ meeting room application.

- Compatible with over 30 video conferencing providers such as Skype for Business, WebEx, Zoom, Microsoft Teams etc
- Compatible to any Windows based applications
- Microsoft Exchange, Office 365 or Google Calendar Integration
- Customizable usage experience

Fujitsu STYLISTIC Q739

## Connect Through Your Own Device

Participants can use any laptop, smartphone, tablet or other device for a smart wireless connection to the meeting, enabling seamless content sharing with both in-room and conference participants.

## Easy & Flexible Collaboration

- Support web and Windows based applications
- Skype for Business integration (Meet Now, Whiteboard, Dialpad)
- One-Touch Join integration with multiple collaboration providers

## Security & Manageability

- Meeting check-in to free up rooms when no one is present
- Reset and Lockdown mode ensures peace of mind usage
- Editable Quicklaunch™ action tiles, consoles and dual displays
- Increasing meeting productivity by saving 8 - 10 minutes collaboration time\*
