Collaboration Tool

Seamless Integration

IoT Enabled

SIMPLIFY THE MEETING ROOM BOOKING EXPERIENCE

Transform all aspects of the workplace

It gives everyone visibility of room availability and the right tools to make and manage room bookings in Microsoft Outlook™ or Google Calendars™ right at the room and on smart devices.

If you are already using room calendars in Microsoft Outlook or Google Calendars, everyone stays in the familiar environment. If not, you'll find that it is easy to set up room calendars and get started with Meeto™.

Meeto™ currently works with your existing calendars:

Office 365 Exchange Suite

ROOM DISPLAY

Enhance meeting room organization and utilization

Meeto™ brings order to the process of booking a meeting room. It allows you to book on the spot, right at the meeting room door, or remotely on your computer or a smart device. It shows meeting information, the upcoming meetings and eliminates meeting interruptions by clearly signaling that the room is occupied and until when in front of your meeting room

SOFTWARE FEATURES

A Comprehensive Meeting Room Overview

Meeto is a cloud-based solution for every office space. The software bridges the gap between digital calendars and the physical workplace. You can have meetings without any hassle with a meeting room manager. It also interconnects with collaboration tools like Cisco Spark, Google and Workplace by Facebook, to help companies, associations and other groups systematically connect people one-on-one for greater collaboration, innovation and knowledge sharing.

Sync with O365, Exchange™, and Google™ Calendars

Works with your existing Calendar

Meeto is the solution for every office space. The software bridges the gap between calendars and the physical meeting room. You can have meetings without any hassle with Meeto, a meeting room manager.

iOS/Android

Supports Multi-platform

Meeto supports everyone to manage meeting room from any web browser and any device. Moreover, Meeto comes with iOS and android native application for better user experience.

Meeting Room Service Satisfaction Survey

Listen to meeting room user feedback

Meeto ensures excellent meeting room service by satisfaction survey to let us know what are the real needs and wants of users.

Collaboration

Improving team collaboration

Meeto create intuitive work environment with easy-to-use collaboration technology. This service improves collaboration with up to date technology that empowers staff to engage and innovate anywhere, on any device.

Actionable Analytics for a more productive workplace.

Transform Workplace by using insights information

Meeto provides information about meeting room for you to make decisions based on actual data, not guessing.

- Detailed usage analytics for every meeting room
- Understand the busiest times and other trends
- Guide employees to the right spaces all day

shaping tomorrow with you

High Quality for your meeting system

NEW FEATURES

Your Choice

■ Improve Meeting Room Environment

Meeto cares for your health. The carbon dioxide trapped in your meeting room is making you think more slowly. Also, poor ventilation may be affecting thinking skills to a greater degree than your thought. Thanks to the IoT sensor that collaborates with our system on cloud to make meeting healthier meeting room environment.

■ Make use of existing Staff ID Card

Meeto allows staff to conveniently check-in and check-out their meetings by simply tapping staff ID card before joining and leaving the meeting room.

■ Enable Touchless Check-in

Meeto enables automatic check-ins and real-time occupancy detection functions in the meeting rooms or even the seminar rooms by placing Bluetooth iBeacon sensors and connecting to our system.

■ Integrate with Chatbot

Meeto provides a Chatbot as alternative way to help you manage your meeting and keep you on schedule.

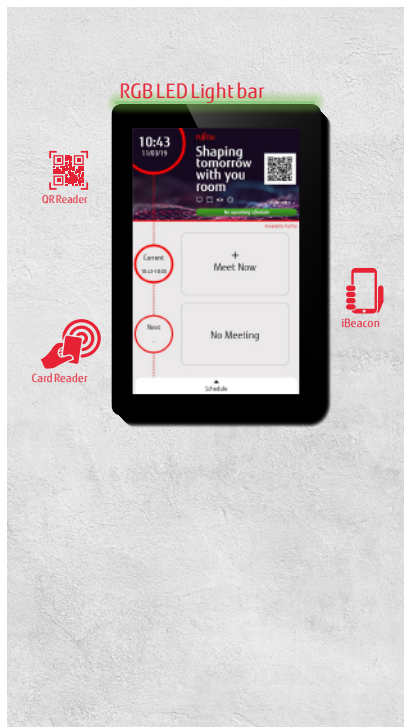

■ Order Snack & Beverage while Meeting

Meeto has a catering feature, which automatically responds to any snack and beverage order in a meeting. It instantly informs your caterers, at the same time, measures their service level agreements (SLAs) in order to ensure the service excellence.

■ Reduce Energy Consumption

Meeto helps you to save energy by controlling to turn on/off electric devices in meeting room such as light bulb as per meeting room schedule.
