

# Accessibility Statement

At Fujitsu, doing the best for our people and society underpins who we are as a company.

Being digitally accessible means that everyone is able to use our products, navigate our systems and understand our communications, regardless of their assistive technology requirements.

In order to achieve this, we are embedding digital accessibility in our policies, processes and working environment. We will adhere, as closely as possible, to the Web Content Accessibility Guidelines (WCAG) 2.1 AA standard, published by the World Wide Web Consortium (W3C).

## Our focus on digital accessibility means that we:

- Actively listen to colleagues who have a disability or assistive technology requirements and act on their feedback
- Proactively work with suppliers to ensure products are accessible
- Provide subtitles or transcripts where appropriate
- Raise awareness that it is everyone's responsibility to create an inclusive environment

We are continuously improving when it comes to digital accessibility; should you experience any difficulty in navigating this website, please don't hesitate to [contact us via email](#) or call us on 01235 797711.
