

Data Sheet

ETERNUS REC Workshop

Professional Services for IT Hardware

INTRODUCTION

Fujitsu offers a one day REC workshop package for the ETERNUS DX product range that empowers your storage management team to effectively configure the REC copying functionality in the most appropriate way for your requirements.

The ETERNUS REC Workshop service delivers:

- A Fujitsu Professional Services Consultant on site for the day meeting with your Storage Management team.
- Appropriate copy methods depending on array use; e.g. Remote Equivalent Copy (REC), One Point Copy (OPC) determined for your purposes.
- Configure and test required backup method e.g. local (snapshots/clones) and/or remote copy (mirrors).
- Performance monitoring guidance on using REC.

PRE-REQUISITES

Requires the pre-installation of SF Manager and REC with its associated license on to the customers array.

BENEFITS

Highly skilled and experienced staff are present during your most vulnerable time of change, ensuring a successful and trouble free configuration plan.

Worry free assured monitoring process, reducing reliance on potentially product unfamiliar resources.

Fast configuration activity with clearly defined costs of implementation.

Efficient knowledge transfer and configuration process to enhance your storage teams knowledge.

How to Order

Solutions

<http://www.fujitsu.com/global/solutions>

The Fujitsu solutions combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships. Fujitsu's Solutions include parts of one or more activity groups (e.g., planning, implementation, support, management, and training services) and are designed to solve a specific business need.

Infrastructure Solutions are customer offerings created by bringing Fujitsu's best products, services and technologies together with those from partners to deliver benefit to our customers' businesses.

Industry Solutions are tailored to meet the needs of specific verticals.

Business and Technology Solutions provide a variety of technologies developed to tackle specific business issues such as security and sustainability, across many verticals.

Services

www.fujitsu.com/global/services/

Several customizable Fujitsu Service offerings ensure that IT makes a real difference and delivers true business value. We do this by leveraging our extensive experience in managing large, complex, transformational IT programs to help clients in planning, delivering and operating IT services in a challenging and changing business environment.

Application Services support the development, integration, testing, deployment and on-going management of both custom developed and packaged applications. The services focus on delivering business and productivity improvements for organizations.

Business Services respond to the challenge of planning, delivering and operating IT in a complex and changing IT environment.

Managed Infrastructure Services enable customers to deliver the optimal IT environment to meet their needs; achieving high levels of IT service quality and performance for data centre and end user environments.

Fujitsu green policy innovation

www.fujitsu.com/global/about/environment/

Fujitsu Green Policy Innovation is our worldwide project for reducing burdens on the environment. Using our global knowhow, we aim to resolve issues of environmental energy efficiency through IT.
