publishes its
fourth Gender
Pay Gap

Reduced the
Median Pay Gap by
4%

- Reduction of 6.3% since originally published in 2017
- Includes a detailed view of the data underpinning this change

Five pillars of the Gender Pay Gap action plan

Our action plan addresses all of the following areas:

Our action plan is underpinned by using our data to understand the progress we are making and where we need to focus more

Headlines from our action plan include

Recruit

Our goal:

Hiring more gender diverse talent across all levels of the organisation and increasing the number of female hires into senior roles

Examples of how we are working to achieve this:

- Gender neutral language in job descriptions
- Making it clear in job advertisements that we promote and support flexible working
- All hiring managers completing unconscious bias training

Headlines from our action plan include

Retain

Our goal:

Focus on retaining female talent and ensuring alignment between male and female attrition

Examples of how we are working to achieve this:

- Retaining Times Top 50 Employer for Women status for 3 consecutive years
- Empowering our Women's Business Network as vocal representatives of women in Fujitsu
- Reviewing and acting on feedback from exit interviews
- Looking at our Employee Engagement surveys through a gender lens to identify and act upon any differences in feedback by gender

Headlines from our action plan include

Enable

Our goal:

Enabling female career progression resulting in a higher proportion of women in leadership positions

Examples of how we are working to achieve this:

- Investing in development programmes for women at all levels such as 'Future Me', aimed at women in junior roles looking to take their next career step, and 'Leading Lights' which supports women to move into senior management
- Ensuring gender diversity is at the core of our conversations from business line review meetings to succession planning

Headlines from our action plan include

Pay

Our goal:

To ensure pay equality through regular monitoring of equal pay by gender

Examples of how we are working to achieve this:

- Equal pay monitoring
- Ensuring gender parity is at the forefront of pay planning and progression reviews

Headlines from our action plan include

Data

Our goal:

Using data to understand, drive and accelerate progress across all part of our gender balance strategy

Examples of how we are working to achieve this:

- Ensuring the business has access to real-time data which will empower them to drive greater diversity in their business area
- Analysing and modelling our data to understand what influences gender diversity at Fujitsu and therefore what opportunities exist to improve gender diversity

A large, vibrant yellow particle splash or explosion effect is on the left side of the slide, extending from the top left towards the center. It has a soft, cloud-like base at the bottom left.

Key Stats
