

SAP Fiori - Mobile Enterprise Integration

Experience a wide variety of technologies and techniques for mobile enablement to support a highly distributed, device independent and mobile workforce

Challenges

- To create a simple and elegant user interface for capturing transactions on any form factor, (tablet PC, cellphone or computer)

How we can help

- Deliver SAP® Fiori Applications using SAP® Mobile Platform to enable common business process across devices
- Build your own Fiori Mobile Applications for specific business processes
- Deploy Workforce® & Sales Force® Automation solutions from SAP
- Fiori is a new addition to the SAP UX-User Experience
- Fiori apps are accessible through a browser so there is no need for a mobility platform

Benefits

- Transform and simplify the business with strategic process enablement
- Improve user satisfaction and operational efficiencies by adopting new user interface paradigms
- The Fiori platform provides for the porting of applications on mobile devices based on the SAP Netweaver® computing platform. This provides a way to recreate the UI for any app with no license fee impact.
- Fiori/UI5 licenses are free of cost to the customer. SAP does not charge any license fee.

How customers have benefited

- Fujitsu developed and deployed a Fiori based Order Return App for a major connectivity and sensors solution provider. The entire solution was designed and deployed in a time duration of five weeks using the order service reps were able to process order returns much more efficiently with less chances of errors.
- Fujitsu deployed a Fiori based Transportation App for a major pork producer which helped its retailers to track and process their shipments and take actions in case of delays

Why Fujitsu

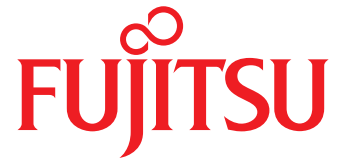

Mobile Enterprise Integration from Fujitsu

- 40 Year SAP Partnership
- One of only three SAP Global Partners in Technology, Services and Hosting

shaping tomorrow with you

shaping tomorrow with you

- SAP Reseller
- Large install base worldwide (+8,000)
- Global SAP Competence Centers in Germany, Japan, and US and Caribbean
- Fujitsu is certified to implement Fiori:
SAP selected Fujitsu to conduct a co-innovation workshop with a Midwestern University, where Fujitsu developed and deployed a Fiori app for their audit practices, making Fujitsu their go-to partner for SAP

About Fujitsu Americas

Fujitsu America, Inc. is the parent and/or management company of a group of Fujitsu-owned companies operating in North, Central and South America and Caribbean, dedicated to delivering the full range of Fujitsu products, solutions and services in ICT to our customers in the Western Hemisphere.
