Introducing Hyperledger Foundation

Open source collaborative effort to advance cross-industry **blockchain technologies**

Hosted by **The Linux Foundation**; fastest-growing project in LF history

Global collaboration spanning finance, banking, IoT, supply chains, healthcare, manufacturing, technology and more.

Shared Ledger Database

Blockchain allows multiple different parties **who may not trust each other** to securely interact with the same universal source of truth.

Finance

Streamlined settlement, improved liquidity, increased transparency and new products/markets

Healthcare

Unite disparate processes, increase data flow and liquidity, reduce costs and improve patient experience and outcomes

Supply Chain

Track parts and service provenance, ensure authenticity of goods, block counterfeits, reduce conflicts
