

It's time to make the move from the Mainframe

Do you want to provide better citizen services, while reducing the cost, and removing dependency from increasing COBOL skill shortage?

It's possible with Fujitsu PROGRESSION ...

Would you like to?

Reduce Total Cost of Ownership by at least 50%

Enable digital transformation, allowing your organization to operate with greater agility

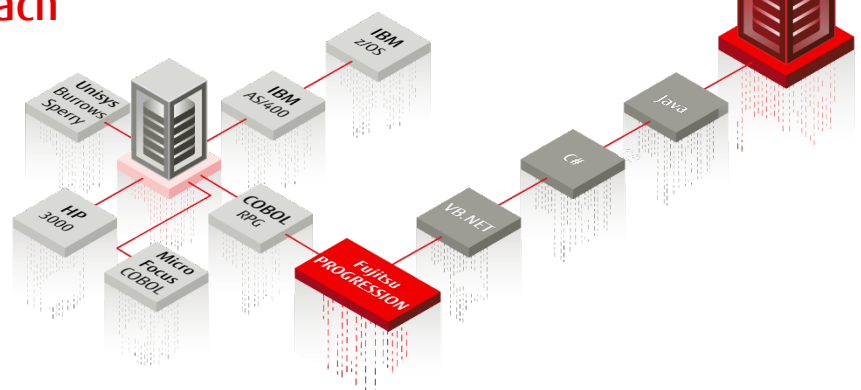

Remove dependency on expensive, increasingly rare skillsets

Your mainframe is holding you back. In order to meet your escalating business demands and reduce costs, modernization is imperative.

... *It's time to act.*

... The PROGRESSION Approach

With the PROGRESSION automated tool suite, legacy applications developed with languages such as COBOL, RPG and Transact can be easily modernized to a modern platform using languages including Microsoft .NET, C# or Java.

... Minimizing Risk

Our expertise in modernization protects your valuable systems so that you can stay competitive with cutting edge technology.

Fujitsu has a proven methodology to mitigate the risk of migration. We can manage the crossover period where new and old systems run in parallel.

This minimizes the risk of jeopardizing your critical processes.

PROGRESSION from Fujitsu is designed specifically for you to modernize and revitalize your valuable systems and assets.

“

70% of IT decision-makers believe that less than half of their current applications can support the future digital strategy of their organization.”

Pierre Audoin
Consultants (PAC)

... What does this mean for your business?

- ⦿ Fast ROI
- ⦿ Removes aging legacy technology
- ⦿ End-to-end approach: From consultancy to modernization, testing, delivery and ongoing services
- ⦿ You own the source code, with no runtime license fees
- ⦿ User interface enhancements are possible
- ⦿ Opportunity to simplify application portfolio
- ⦿ Aids compliance and legislation

We help you address issues such as vendor lock-in, high operating costs, technological redundancy, skills rarity and unacceptable time to market.

About Fujitsu
