# Easy NX Connect™

v2.0

Fast login to scan directly to Active Directory email, folder or popular cloud repositories.

## Digital Transformation isn't just for the big guys anymore.

Any size organization, small to large, can take advantage of cloud-ready document management platforms using the FUJITSU fi-7300NX Document Scanner with NX Manager and Easy NX Connect. Easy NX Connect is an affordable software license that includes over 20 destinations.

Easy NX Connect extends the capabilities of your fi-7300 NX scanner with uncomplicated pricing

- **Add the convenience of *multiple connectivity*** to the most popular cloud platforms and scan destinations
- **Work faster** with tap-and-scan NFC authentication, one-button scanning operation, and more
- **Save money with simplified licensing** with one low price for unlimited scans
- **Use your existing NFC ID company badges** or inexpensive NFC stickers\*<sup>2</sup> to login
- **Eliminate complicated training** with simple login options and pre-set job buttons

## Connect to over 20 of the most in-demand destinations

- Active Directory email and folder
- Amazon S3
- Azure Blob Storage
- Box
- DocuWare
- Egnyte
- FTP, FTPS, and SFTP
- Laserfiche
- Local DataBase email and folder
- M-Files
- Nintex
- OneDrive for Business
- Scan to Print
- SharePoint Online
- Web Mail (i.e. Yahoo, Gmail)

## Authenticate with ease

- NFC to Active Directory
- NFC to Local Database
- PIN / Password to Active Directory
- PIN / Password to Local Database

Stay tuned... **more connectors to come!**

\*<sup>1</sup> Terms apply. See site for complete details. \*<sup>2</sup> Supports Felicia, Type-A/Mifare, and Type-B NFC cards and stickers

New features and destinations in v2.0:

- Over 20+ connectors rolled into one! No need to purchase multiple connectors
- Single sign-on into Easy NX Connect applications
- One-Touch to upload documents into your selected destination
- Simplified job configurations from destinations to NX Manager – reduces admin work

# How it works

- 1 User taps NFC-enabled ID card or badge to log in.
- 2 The scanner checks Active Directory to verify credentials then
- 3 pulls a list of authorized job functions, which are
- 4 displayed on the scanner's touch screen.
- 5 Output goes to the selected cloud service, folder, or email recipient.
