# Why choose Open RAN?

Why Open Works

Removes Vendor Lock-In
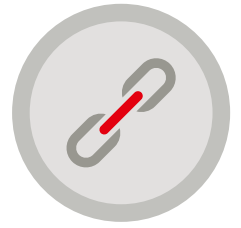

Encourages Cost-Competitiveness

Speeds Innovation

Standardizes the Management Interface

Diversifies the Supply Chain

Open RAN Standards Ecosystem

Open standards groups are dedicated to pushing common standards, policy, operator and vendor communities:

Open RAN POLICY COALITION

O-RAN ALLIANCE

3GPP A GLOBAL INITIATIVE
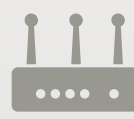

OPEN AIR interface

TELECOM INFRA PROJECT

Fujitsu's RAN History

1995
Began supplying RAN infrastructure

2004
First world shipment of Fujitsu RRH

2014
Fujitsu begins supplying dual and triple band RUs

2019
World's first commercial O-RAN compliant 5G deployment

The Fujitsu Solution

vRAN
vCU and vDU options provide high network quality and flexibility

Open Radio
Enabled by an O-RAN ecosystem, Fujitsu offers various multi-band options

Software Control
Fujitsu Cloud Platform allows for the control of O-RAN management models and interfaces

Services
End-to-end systems integration, single point of contact solution maintenance, and secure supply chain

FUJITSU
- 5G Transport
- Baseband Software (vDU/vCU)
- LTE/5G Radios (RU)
- Software Solutions

O-RAN ALLIANCE Open Standards

Product Integration & Certification

Complete & Validated 5G RAN Solution

Open RAN. The Best Choice for 5G.
