

# PaperStream Capture

Capture. Optimize. Access.

Datasheet

PaperStream Capture provides a digital on-ramp for businesses. Included with Fujitsu fi Series scanners, this software builds on the powerful PaperStream TWAIN and ISIS drivers to deliver the best image quality in a small file size. The user-friendly interface, with its simple icons and intuitive navigation, decreases operator training times. While easy-to-use, profile flexibility gets the documents to the right location in the correct file format without changing existing workflows. PaperStream Capture is a great front-end to your document capture workflows.

## Standard File Outputs

Scan to PDF, PDF/A, PDF with OCR, TIFF Group 4, Multipage TIFF, JPEG, BMP with a single click.

## Preset Profiles

Built-in Black and White, Color, and Auto-Color profiles saves time.

## Automatic Image Quality Check

Batches automatically mark multi-feeds and document edge issues for fast quality control.

## Review

Detailed thumbnails and zoom allow for quick quality review.

## SCA Profile Integration

Deploy fleet updates and profiles using Fujitsu's free Scanner Central Admin.

## Assisted Scan Integration

Use PaperStream IP integrated Assisted Scan for quick rescan and powerful image clean up.

## Batch Separation

Separate documents with barcodes and patch codes to avoid post process file organization.

## File or Folder Naming

Barcode reader and Zone OCR to name a file or folder for fast file organization.

## Release File Naming

Name scanned files at release for ad hoc batches.

## Barcode Support

Read 1D barcodes: UPC-A/EAN/JAN, Code 3 of 9, Code 128/EAN128, Codabar (NW7), ITF.

Departmental scanners and above support 2D barcodes\*, PDF417, QR Code, and Data Matrix.

## Selectable Batch Icons

Personalize batch icons for easy workflow recognition.

## Profile Lock

Administrator can lock profiles to maintain scanning consistency.
