

IMAGING

Scanner

M3096EX/GX

Departmental
Document Scanners

Quality, high-performance
simplex scanners designed
for document imaging
applications.

- Scan rates of 22 pages per minute
- Supports Fujitsu ScanRight™ image processing technology options for increased image quality
- Option slot for third-party boards
- Resolutions from 200 to 400 dpi and 256 steps of grayscale
- Flatbed and built-in, 50-page automatic document feeder
- Scans documents from 5.8" x 8.3" up to 11.7" x 17" in size
- TWAIN and ISIS® driver support for seamless application integration

The Fujitsu generation of high-performance scanners delivers faster speed, advanced paper handling, true ease-of-integration and compatibility with hundreds of document imaging applications. What's more, the Fujitsu scanner's list of standard features includes built-in automatic document feeders for rapid unattended scanning of multi-page documents, and a flatbed for scanning books, bound reports and fragile originals.

ScanRight™ Technology Makes It Better

The M3096EX/GX configurations add support for Fujitsu ScanRight image processing technology option, which can dramatically increase image quality through automatic separation and noise removal while providing specialized features such as image edge-enhancement and dynamic thresholding. Paper handling capability has been enhanced through an improved automatic document feeder design, which includes locking paper guides that help eliminate skewing. An internal options connector slot has also been added to the M3096EX, providing connectivity for third-party options such as 256-step grayscale boards.

Compatibility and Support

The M3096EX incorporates an RS-232/video interface widely used throughout the imaging industry. Alternatively, M3096GX connects via a standard SCSI-II interface. Both include built-in emulation for their predecessors ensuring continued compatibility with existing applications plus an upgrade path that extends throughout Fujitsu's entire line of world-class, document image scanners.

Product Migration and Compatibility

- M3096EX scanners will run in emulation mode making them plug-and-play compatible with existing applications that currently support the M3096E+ scanners. However, new drivers are required to access the newer features.
- M3096GX scanners come installed with the standard 1MB compression board. The CMP-II board option is available to allow the scanner to use older legacy drivers.
- The Fujitsu ScanRight image processing option

board is supported by certain versions of the video and SCSI tool kits from Kofax, Xionics/GGX, Dunord and Pixel Translations. Please check with these vendors for proper driver versions.

Maximizes Your Up-Time

Fujitsu backs each M3096 series scanner with 90-day on-site limited warranty. In addition, a free nine-month depot service upgrade is available to all customers who register their product within 90 days of purchase. For full details, visit www.fcpa.fujitsu.com or call 1-800-626-4686. In addition, FCPA also offers the following service programs:

- **Basic On-Site Service Upgrade:**
Minimize downtime and maximize productivity with responsive, next day on-site service.
- **ScanCare™ Preventative Maintenance:**
Industry leading service that includes on-site coverage, consumable replacement, preventative maintenance, and operator training.

Restrictions apply. For full details on all service programs, go to www.fcpa.fujitsu.com.

M3096EX/GX Departmental Scanner Specifications		
Models	M3096EX	
Models	M3096GX	
Functional Specifications		
Technology	Charge coupled device (CCD) image sensor	
Resolution	200, 240, 300, 400 dpi	
Halftone patterns	64-step and error diffusion	
Grayscale	256-levels via third-party slot	256-levels
Scanning speed @ 200 dpi letter size	22 ppm	
Scanning mode	Simplex	
Document feeding mode	Automatic document feeder (ADF) and flatbed	
Emulation mode	M3096E+/G	
ADF capacity	50 sheets	
Document size	ADF minimum	A5 (5.8 in. x 8.3 in.)
	ADF maximum	11.7 in. x 17 in.
	Flatbed maximum	11.7 in. x 17 in.
Interface	RS-232/Video	SCSI-II
Software driver support		ISIS, TWAIN
Physical Specifications		
Power requirements (auto-switching)	110V/220V	
Operating environment	Temperature	5°C-35°C
	Relative humidity	20%-80% (non-condensing)
Power consumption	100 W or less	
Dimensions (HxWxD)	6.8 in. x 27.4 in. x 19.7 in.	
Weight	38.6 lbs.	
Reliability Specifications		
MTBF	10,000 hours	
MTTR	30 minutes	
Limited Warranty	3 months on-site ¹	
Options	ScanRight image processing board, ScanCare Service Program, ScanAid™ Consumable Kit	

¹ Customers who register their scanner within 90 days of purchase will receive a free nine-month depot service upgrade. For full details, visit www.fcpa.fujitsu.com or call 1-800-626-4686.

About Fujitsu Computer Products of America, Inc.
Fujitsu Computer Products of America, Inc. is a wholly owned subsidiary of Fujitsu Limited, a leading provider of Internet-focused information technology solutions for the global marketplace. FCPA provides innovative solutions for the U.S. marketplace. Current product offerings include: high performance hard disk drives, magneto-optical drives and scanners.
